OF INTERIOR
OF THE SLOVAK REPUBLIC

How to Act in Case of A HAZARDOUS BIOLOGICAL SUBSTANCE LEAK

Quickly leave
the affected area

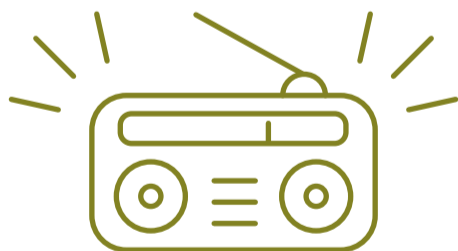

Follow the instructions
of authorized personnel

Create an isolated space
and block air ventilation,
regularly disinfect
the area

Monitor information
through official
communication channels

Strictly adhere
to quarantine hygiene,
anti-epidemic, and anti-epi-
zootic measures

Do not use water from
unknown sources; create
reserves, boil water
or purify it chemically

Store food and water
in airtight, disinfected
containers

Maintain personal hygiene
and avoid touching
suspicious objects

If you show symptoms
of illness, seek medical
assistance immediately
