# How to Act in Case of A HAZARDOUS RADIOACTIVE SUBSTANCE LEAK

If you are outside, immediately find the nearest building and shelter in a sealed room

**If you might have come into contact with radioactive substances before sheltering:**

Before entering the building, place contaminated outer clothing and shoes in an airtight bag and do not use them

Thoroughly wash your hands, face, and hair, rinse your eyes and mouth, and clean your nose and ears, shower the rest of your body

Seal and secure windows and doors, preventing air circulation

Follow information on official communication channels

Prepare improvised protective equipment

Prepare an evacuation kit

Store food and water in airtight containers

Feed and water your pets, placing them in transport boxes

Wait for further instructions
